

Dear ASPET members,

The British Pharmacological Society is delighted to announce that you can now [register](#) for *Pharmacology 2016*, taking place on 13–15 December 2016 in London. *Pharmacology 2016* attracts over 1,000 scientists from across the world – and there are already registered attendees from North America, Africa, Europe, Asia and Australasia. This year, ASPET is a guest society and we look forward to welcoming many of you to London.

About Pharmacology

Located in the heart of London, opposite the historical Westminster Abbey and Big Ben, the meeting includes a selection of topical symposia, plenary lectures, oral communications and poster sessions covering the whole spectrum of pharmacology. You can view the [full programme](#) already.

In addition, there will be a number of social events offering networking opportunities to build your international connections. You can book your place for these online during registration. If you have not been before or in recent years, find out what other pharmacologists have to say about the meeting by watching our [short video](#) from last year.

What to look out for in 2016

- The ASPET guest symposium, *The long reach of the bowel: Translating microbiome science into therapeutics for systemic human diseases* - new findings regarding GPCR expression in a variety of cell types and tissues and the role of newly recognized non-traditional and orphan GPCRs in regulating organ function and as potential therapeutic targets.
- At least 100 platform presentations of submitted abstracts, the largest number of oral communications to be included at Pharmacology yet.
- *Shaping the future of pharmacology*, a special satellite conference for student, graduate and post-doctoral pharmacologists. Karen Tonsfeldt, from ASPET's Young Scientists Committee, will discuss *How to get involved: Shaping the future through your Society membership*.

Registration

ASPET members are eligible for reduced affiliate registration rates. [Register now](#). There is also information about [accommodation and travel](#) available.

Submit an abstract

The deadline for abstract submission is **9 September**. [Submit an abstract now](#). You can find further information on the [Pharmacology 2016 webpage](#). In the meantime, if you have any additional questions about attending or presenting, please don't hesitate to contact the Meetings Team (meetings@bps.ac.uk or +44 (0)20 7239 0176).

We look forward to seeing you in London in December.

Best wishes,

Professor Barbara McDermott
Vice President – Meetings, British Pharmacological Society

&

Talja Dempster
Head of Meetings & Events, British Pharmacological Society
